## Unleash Iceland

On this brand-new tour, we visit the magnificent Raufarhólshellir lava tunnel, Skyrgerðin Factory and go on a northern lights hunt.

The lava tunnel is one of the biggest in Iceland, formed over 5000 years ago and gets up to 30 metres wide and 10 metres high. We will stop for an hour in the cave and learn about its history and geology.

At the Skyr Factory in Hveragerði we will get an introduction to the history of Skyr and how Icelanders manufactured it in the past centuries. We will also get the one and only TripAdvisor Skyr cocktail. After the visit, we begin our hunt for the magnificent northern lights.

## Golden Circle & Northern Lights

Explore a few of Iceland's most famous landmarks on Golden Circle Direct as well as go on a search for the northern lights in one day.

Pingvellir is known for being one of the very few places in the world where you can see the North-American and Eurasian tectonic plates above ground, Geysir geothermal area with Strokkur shooting up water every few minutes is a sight to remember and the spectacular Gullfoss are all sights we will see on this tour.

After a day of sightseeing, you will join us for a northern lights hunt. The northern lights are a spectacular sight.
